GENERAL INFORMATION

With a carefully chosen mix of pre- and post-consumer recycled glass, GEOS Surfaces are a unique surface of superior strength and remarkable beauty. It is a non-porous, durable material that performs, fabricates, and installs like engineered stone. Combined with proprietary resin binders, GEOS Recycled Glass surfaces do not require sealing. GEOS is available in a wide range of colors and is suitable for both commercial and residential applications.

SUSTAINABILITY

- 55-60% recycled glass, but can be as high as 75%
- Low VOC resin binder

SIZES

- 118" x 63"
- Thicknesses available: 2cm & 3cm

APPLICATIONS INCLUDE

- Residential surfaces such as kitchen countertops, islands, bathroom vanities
- Commercial surfaces such as conference tables, break room countertops, reception areas, retail displays
- Furniture: tabletops, benches, stools
